

**Scraplift!**

**The Layout**

**Special,**  
by Aida Haron

For this month's Scraplift, Aida created this gorgeous 2-photo layout. The layers are so carefully and beautifully placed, and you can get lost in all the little details.

**The "Lifts"**

This month, we had a Daisy Diva and two Cocoa Daisy customers lift Aida's layout. Do you want a chance to have a layout published in a Cocoa Daisy newsletter? Lift this layout, upload it to the message board [here](#) and link your layout to [this thread](#) on the message board.

**Music,**

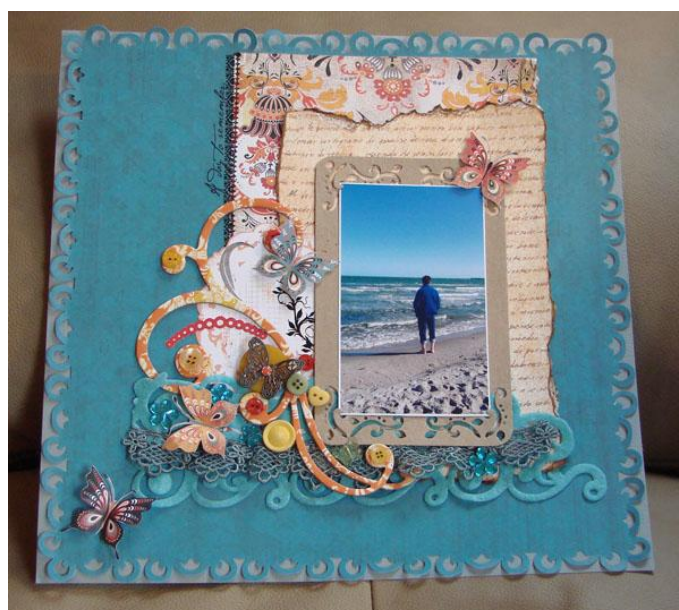

by Ronda Palazzari

Ronda totally loved Aida's layout, especially how she layered all the beautiful elements so seamlessly together. She also lifted the sideways title along with lines drawn around the left side. She recreated the layers in her own way by gathering up bits & pieces to do the layer. She then tied the silver ribbon in three bows, stitched it together, and added the other elements.

**A Day to Remember,**  
by Katherine McKamey

We LOVE what subscriber Katherine McKamey did in her lift of Aida's layout. She replicated the title placement and accented her photo with layers of gorgeous detail, just like Aida did.

**Precious**  
by Sue Mylde

Sue combined Aida's use of torn patterned papers, the vertical title placement and the placement of photos in creating her layout. Great work, Sue!
